

May 4, 1982

Pennsylvania. The Committee is, at the same time, interested in doing everything that it can to improve the appearance of the city of Carbondale. That being the case, we are interested in having the lights in question not only put in working order but also turned on for a few hours every day. Carbondale Post Office is, as we all know, a beautiful building. Its beauty, by day and by night, will be enhanced immeasurably when the lights on the lamp posts in front of the building are put in working order.

This letter, therefore, is a request that the Committee to Restore Carbondale City Hall, Inc. (an independent group of Carbondale citizens that is not aligned with any political party or group and that is incorporated as a non-profit organization) be given permission to contribute to the Carbondale Post Office the funds necessary (1) to purchase four new globes--total cost approximately \$400--for the four lamp posts on the Main Street and Lincoln Avenue sides of the Carbondale Post Office, and (2) to cover the cost of turning on the same lights for a few hours daily.

We look forward to receiving your permission to implement this proposal.

Sincerely yours,

A handwritten signature in cursive script, reading "S. Robert Powell".

S. Robert Powell
